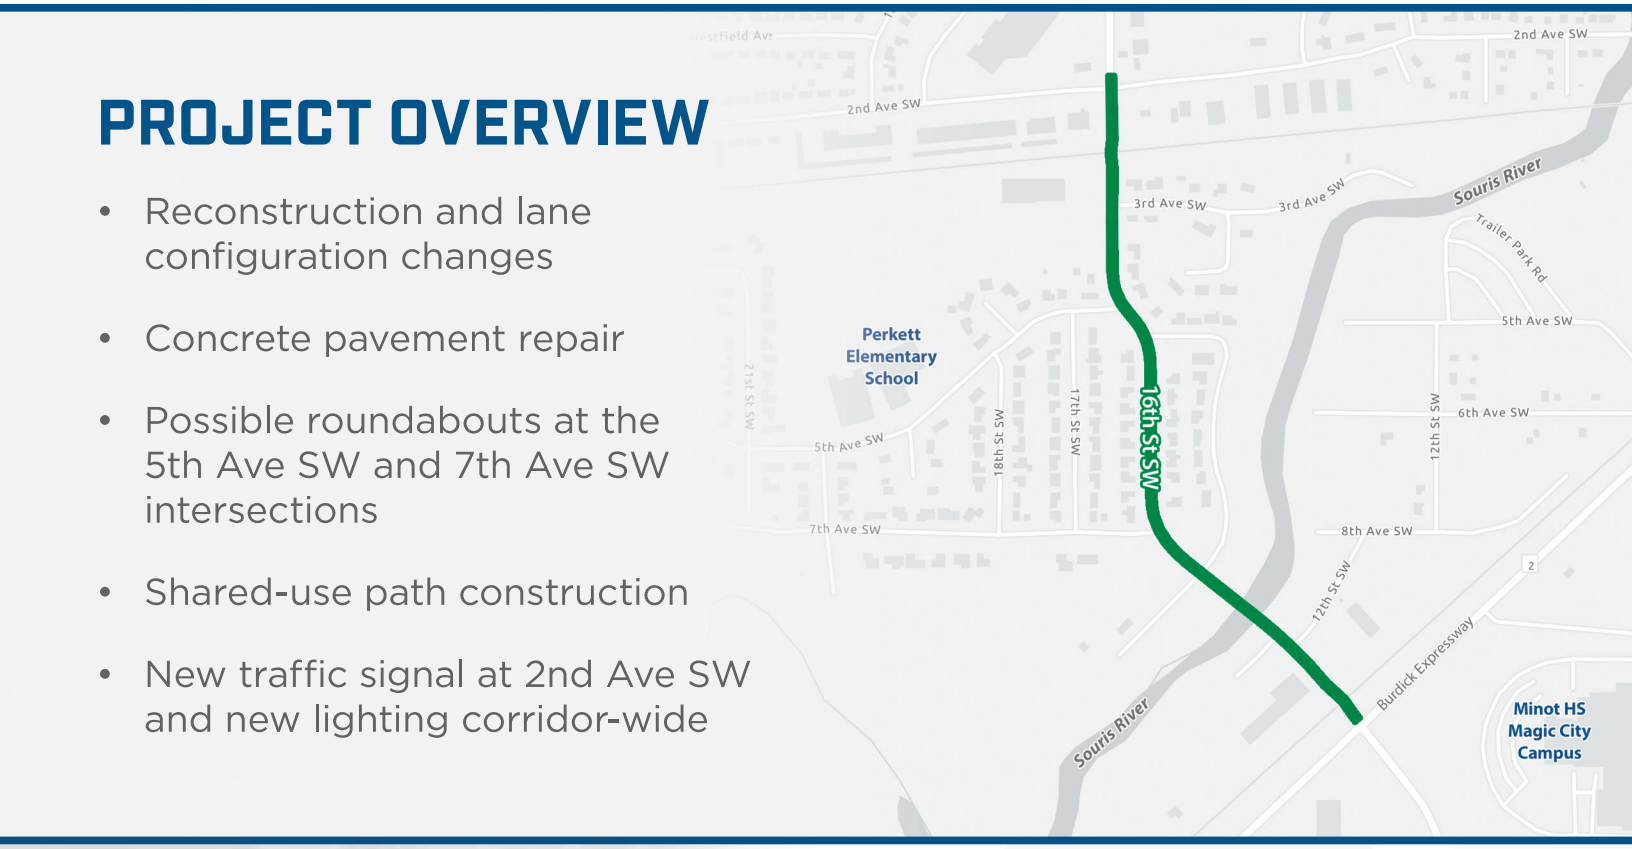
16th Street SW

NORTH PROJECT

PROJECT OVERVIEW

- Reconstruction and lane configuration changes
- Concrete pavement repair
- Possible roundabouts at the 5th Ave SW and 7th Ave SW intersections
- Shared-use path construction
- New traffic signal at 2nd Ave SW and new lighting corridor-wide



CONTACTS

Lance Meyer, PE
City of Minot Engineering - City Engineer
Ph: (701) 857-4100
Email: lance.meyer@minotnd.gov

Matt Kinsella, PE
Apex Engineering Group - Vice President
Ph: (701) 373.7987
Email: matt.kinsella@apexenggroup.com

Kelly Nissen
Public Information Coordinator
Ph: (701) 833.2019
Email: knissen@odney.com

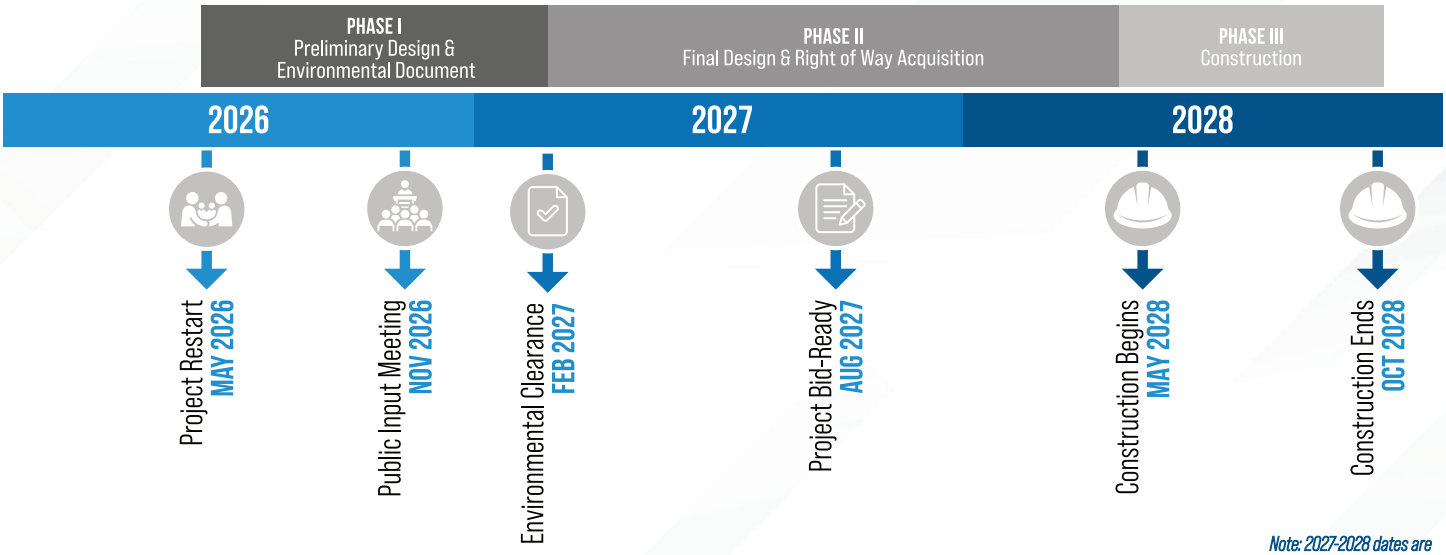
16th Street SW

RECONSTRUCTION PROJECT

North Project Timeline



Note: 2027-2028 dates are tentative and subject to change.

QUESTIONS AND ANSWERS

When will this project be constructed?

Tentatively scheduled to start in Spring 2028 and end in Fall 2028.

Will 16th Street SW remain open to traffic during construction of the North Project?

Yes and no, depending on the corridor segment:

- The segment from 7th Ave SW to 5th Ave SW is expected to be closed with traffic detoured.
- Residents with direct access to 16th St SW will need to temporarily park on side streets.
- The 16th St SW bridge over the Mouse River will remain open to traffic as much as possible, depending on the intersection options selected at 7th Ave SW and 5th Ave SW.

Will you need additional right of way/easements from my property for the North Project?

Yes - it is likely we will need a temporary easement from your property. Depending on the intersection options selected, we may also need narrow strips of right of way (ROW) from your property. Preliminary locations of ROW needs are shown on the project maps available at this meeting and on the project website. We will work with landowners to finalize these ROW needs during the final design process in 2027.

How will the North Project be funded?

Total project costs for construction, engineering, and right-of-way acquisition for the North Project are currently estimated at $12.7 M - $15.6 M (2028 dollars).

Cost estimates are preliminary and subject to change. No special assessments are expected at this time. Funding will be a combination of the following:

- Federal funds ($5.4 M)
- City funds ($7.3 M - $10.2 M) from Hub City Oil and Gas Funds and Water and Sewer Reserves.

How can I stay up to date during project development and construction?

Project updates will be posted to the following locations:

- minotroads.com
- facebook.com/cityofminot

You can receive email updates by signing up for the newsletter hosted through the Minot Roads website *(visit URL above or scan this QR code).*

There is also a designated Public Information Coordinator – Kelly Nissen – available during design and construction to address specific issues or communicate needs. Kelly can be reached at 701.833.2019 or knissen@odney.com.
